Human demonstration
Joystick → MoveIt Servo → UR5
Two RGB views + aligned depth
Measured joints + gripper estimate
Final controller targets + language
20 Hz raw episode recorder
Frames, media, timing, metadata
Structural + timing + behavior checks
reject
Document exclusions
Preserve source records
Versioned LeRobot dataset
RGB video + 7D state/action + task
Training and checkpoint preservation
Weights + configuration + processors
Offline comparison → live shadow checks
Physical experiment protocol and trial records
Task outcomes, timing, interventions
